A Talented Twirler. J. Black, pitcher and general all round fielder of the Western association, who is at present with the Sioux City club, was born in Cincinnati, O., Dec. 10, 1864. He is 5 ft. 514 in. in height, and weighs 155 pounds. This talented ball player made his debut as a professional in 1884, when he signed as pitcher with the Quincy (Ills.) club. The well known "Kid" Bald-win was his catcher, and they were known all over the country as the "pony battery. His next engagement was with the Mem phis (Tenn.) team, for whom he pitched winning ball for the three seasons of 1885, 1886 and 1887 In 1888 he joined the Lynn (Mass.) club, where he did good work as pitcher till early in July, when his arm gave out, and he asked for and obtained

Before a week had passed he was signed by the Wilkesbarre (Pa.) management to play in the infield, and with that club he

finished the season. Last year he again wore Wilkesbarre uniform till July, when the club disbanded. He then transferred his services to the Sioux City team, and this year he is still a member of the band of ndians. Black is one of those valuable baseball players to whom nothing comes amiss on the ball field, and he can fill any position at a moment's notice, as he is equally at home in catching, pitching of fielding. His averages for this year are: Batting, .2%; left field, .943, and center

Swift Mary Marshall. One of the most remarkable trotters de-

veloped during the present season is five-year-old Mary Marshall, the swift mare that broke Keno F's heart at Independence, Ia., in August, by doing one heat in 2:17. Mary's great speed is not the result of chance, but comes to her legitimately from a long line of speedy ancestors. Her sire was Billy Wilkes, 229%, son of Harry Wilkes, 2:1314, by George Wilkes, 2:22 Her dam was a daughter of Mambrino Abdallah, and the blood of such fiyers as Mambrino Patchen and Lady Thorn, the latter 2:18¼, runs in ber veina.

MARY MARSHALL.

The leading blood elements that come to Mary Marshall from her ancestors are Hambletonian and Mambrino Chief, ele-ments that all breeders recognize as productive of wonderful results upon the trotting turf. Mary's maiden effort was at Minneapolis, July 8, when she won second money in the 2-65 class. Her time for the second heat was 2:24%, but in subsequent races she bettered this record by over seven
